towards imagining the _____Adjective_____ latitudes of your _____Part of Body_____. That language

contains). I had wondered if relationships, like _____Noun - Plural_____, take

form before they are written down - and, if so, what this might mean

for navigating the infinite radius of our celestial sphere. It wasn't

until you hocked a loogie on the _____Noun_____ beside us that your body

stopped flickering and I looked to see if my fingertips refracted

_____Noun_____. I did not wish my circling of your beauty to become an occasion

to hang our clothes on. Though I _____Verb - Base Form_____ to dissolve your cadence into

unclad yawps, somewhere between my new-found gallantry and a cellular

reverence for your voice I lost my nerve. Or found it, alongside a

reformed desire to _____Verb - Base Form_____ on the _____Noun_____ before I eat the _____Noun_____. I left

(delightfully wanting more) with only a faint sense of your eau.

With the approach of distance I kept my head out the window hoping

that perspective would get stuck in my _____Part of Body_____. There are seven stages

of

courtly love that precede consummation, I kept telling myself, I

kept telling my self... The _____Adjective_____ propositions you provoke within

me take the form of your _____Part of Body_____ - savagely resonant, _____Adverb_____ unruly,

doggedly obsessed with _____Verb - Present ends in ING_____ your neck.

yours, _____Verb - Present ends in ING_____ a _____Adjective_____ wind for your direction,

-e.
