PharmaLogical

1. Noun - Plural _____

PharmaLogical

Everyone at PharmaLogics is excited to start off the new quarter strong. [Female Name of Person in Room] had set goals for herself: get more [_____Noun - Plural_____ noun], be more [adjective] and of course, have 8 or more [plural noun]!

Some of the searches this quarter include: [adjective] Supply, [noun] Engineer, and Computational [job title ending in -ist or -ing]. These new and exciting roles require [number] of hours per week--a daunting task, but one the PharmaLogics recruiters are up for, rest assured!

That being said, the project managers have high expectations: they want people to be their best [adjective] and [adjective] selves. The ICATER values haven't changed: the "I" still stands for [word starting with "I"]; the "C" still stands for [word starting with "C"] and so on.

PharmaLogics is also pleased to announce that it will be adding a new regiment of [physical activity] to its healthy lifestyle encouragement for all employees! [Drink] and [food] will also be provided as commodities.

As Q2 approaches, it's important to remain [adjective]. Health and wellness, positivity, and productivity are encouraged. Your teammates are there for you; and your senior recruiters have training modules on [noun], [noun], and [noun] waiting in the wings.

The future is bright at PharmaLogics, and it's thanks to all you shining stars.
