Magic

Magic is a/an Adjective hobby. It is so Adjective. Once I did a trick to make my Animal disappear. It was awesome! But it made me Feeling. Next I made my dad's Body part disappear. He was okay, but he made me put it back. Then I did this one trick where I bent a frying pan. My dad didn't notice it, so my Food slid out of the pan and landed in the fire. I still ate it, but it was burnt. I think you should try magic some day because it is soooooo Adjective.
