## Magic

Magic is a/an <u>Adjective</u> hobby. It is so <u>Adjective</u>. Once I did a trick to make my <u>Animal</u> disappear. It was awesome! But it made me <u>Peeling</u>. Next I made my dad's <u>Body part</u> disappear. He was okay, but he made me put it back. Then I did this one trick where I bent a frying pan. My dad didn't notice it, so my <u>Food</u> slid out of the pan and landed in the fire. I still ate it, but it was burnt. I think you should try magic some day because it is sooooo <u>Adjective</u>.
