## One or More Than One

Once upon a time there were 3 little pigs. One little pig liked to look at the $\qquad$ in the sky. The second little pig had a pet $\qquad$ The third little pig drove a shiny red $\qquad$ . All of the little pigs
liked to eat $\qquad$ . They all lived together in a big house that was made out of many
$\qquad$ . Sometimes the three little pigs liked to pick $\qquad$ together. Sometimes the first and second little pig would pretend to quack like a $\qquad$ , but the third little pig would pretend to bark like a $\qquad$ . Every afternoon the little pigs would go to the park to play with $\qquad$ .

They always had a good time at the park. At the end of the day the three little pigs always returned home to eat
$\qquad$ and go to $\qquad$ . The End.
