# I like Pie

Once upon a horse,           Noun           rode to a pie. When           Noun           got to the           Noun          , it was           Adjective          . I tried to           Verb - Base Form           in to the           Noun          , but the           Noun           didn't like the           Adjective           flavor.
