# Lunch Time and Recess !

It is almost time for           Noun          . Thank goodness! I am very hungry. I brought a           Noun           with           Noun          , ham, and tomatoes on it. I even have           Noun - Plural           on the side! I can't wait to           Verb           on it. I think today I will sit next to Charlie at lunch. Charlie usually eats chicken nuggets and chocolate milk. After lunch I think we will play in the gym because it is chilly outside. I want to play chase because it is my favorite. I am always the champion because no one ever catches me. My teacher has lunch duty today so she will be watching us play chase.
