I glanced over to see a Animal. "What are you doing here?" it asked me. I was so Adjective that I Verb - Past Tense. Exclamation! I didn't know that talking same animal plural existed! "What is your name?" the same animal asked me. "full name number one," I said, feeling nervous, "What's yours?" The same animal said, "Well my name is full name number two and I'm looking for somebody to verb you can do to something- kiss punch etc me." I didn't think my Noun - Plural would be emotion, so I scooped up full name number two and went back home to Location.
