The massage (which was in the nude) went well until I tried my secret \_\_\_\_\_ Noun move. "Are you experiencing

mind-blowing Noun - Plural?" I asked, realizing that that is not how sexy people Verb - Base Form.

He knew a trick question when he heard one and wisely chose not to Verb - Base Form. But it was obvious

that it completely "meh." It honestly would have been more exciting if I'd done that thing where a grade-school

crush comes up and Verb - Present ends in S on your Part of Body, causing them to Verb - Base

Form.

The Part of Body sucking is a Adjective classic tip, even though it is a bit "Look at my sexy move

." It really is like a preview of what you'll be doing to his Weewee and I found myself Verb - Present ends in

ING off on it because, if you must know, I do like Verb - Present ends in ING head.. said nothing about my

"Adjective tongue" but I'm sure he will brag about getting some Repeat Last Adjective tongue action later

because that's exactly how Animal (plural) talk.

The Verdict: The Part of Body tip doesn't even really qualify as a tip. Sure, some Noun - Plural

might dig it but it's not, like, Forbidden Wisdom courtesans have secretly been Verb - Present ends in ING

down for generations.

The Part of Body tip is excellent, but it works best if the urge to suck rises organically and you do it with

the proper amount of Adjective debauchery. Then, my friend, it's Adjective.
