Next Stop - The Moon

America's Vision forExploration, the long-term plan for sendingto Mars and
beyond, moved ahead in August with the selection of Lockheed Martin Corp. as the primeto build
the Orion crew exploration vehicle, to be operational by 2014. Orion and its astronaut crew will be
into space by the new Ares I launch vehicle. Larger equipment bound for the moon and
Mars willinto space atop the Ares V heavy launch vehicle. The Ares Icompleted
its systems requirement review during the fall of 2006. The next generation launch vehicles will be based on
versions offrom the Apollo and shuttle programs but also will employ newly
developed systems and hardware with far greater capabilities. In December, Proper noun Past tense
elements of a Global Exploration Strategy and lunar architecture to explain the rationale for returning to
thefor further exploration and to helpfor later journeys to Mars and other
destinations.
