3. Noun

# My life

My telephone is working

I ain't even surfing away

So many things I'm wondering

Things falling from the Noun

It ain't even rain

And things aren't just the same

without you oh yeah it's true

my day feels so blue with out

my head is going crazy

will stay home and be lazy

thinking about my           Noun          

it`s boring be           Noun          

I would try and have no fear

.
