# Asbestos

Low levels of asbestos are in the air we breathe and some of the water we \_\_\_\_\_ Verb including water from natural \_\_\_\_\_ Plural noun. Studies have shown that members of the general population have tens of thousands to hundreds of thousands of asbestos fibers in each gram of dry lung tissue, which translates into millions of fibers and tens of thousands of \_\_\_\_\_ Noun bodies in every persons lungs.

Many buildings contain asbestos, which was used in spray-applied \_\_\_\_\_ Noun retardant, thermal system insulation, and in a variety of other materials. Asbestos was sometimes flocked above false ceilings, inside \_\_\_\_\_ Adjective \_\_\_\_\_ Plural noun and in many other small spaces where firefighters would have difficulty \_\_\_\_\_ Verb ending in ing \_\_\_\_\_ Plural noun. Structural components like asbestos panels were also used. In residences, asbestos was often a component of a type of flocked acoustic ceiling called \_\_\_\_\_ Noun ceiling, until its production was banned in the US in 1978. However, the ban allowed \_\_\_\_\_ Plural noun to use up remaining stocks, so \_\_\_\_\_ Plural noun built as late as 1986 could still have asbestos in their acoustic ceilings. The only way to be sure is to \_\_\_\_\_ Verb a \_\_\_\_\_ Noun and have it tested by a competent laboratory.
