# the robots revenge

once upon a time there was a robot named           Noun          . he was created by franken stien and later frankn stien found himself a           Noun           and married it. so he abandoned           Noun           and locked him up. and it is now           Noun           and           Noun           has come back from the locked up jail thing to seek his revenge on franken stien (franken stien is died)he kept searching , then in jail he found someone who looked like franken stien and           Noun           him. THE END.
