Baby Surprise

It was a Tuesday when my husband and I found out we had a baby. My husband freaked out. "There's no way!

How could we possibly be having a baby?"; he said. I was confused too, unitl I remembered that night...

And he remembered it too.

We bought supplies, got a room cleared out, and got ready for the baby. We thought about names, like

_____Boy name_____ Michelle, _____Girl name_____ Carolyn, Madison, _____Boy name_____ so on.

When we had the baby, we had decided on _____Same girl name_____. But when we got the baby back, it was an alien

! So we raised her, and she went off to outer space to join her real family before she was sent to earth to be raised

by our family. THE END.
