## **Collaborative Drug Therapy Management**

| As a pharmacist interested in developing a collaborative practice agreement, you should know that you would    |
|--|
| need to obtain <u>Number</u> additional continuing education hours per year. You also need to protect yourself |
| with at least (per occurrence) of professional liability insurance. Since you are from                         |
| Northeastern, you will have <u>Adjective</u> PharmDs and be able to establish a CDTM agreement after           |
| graduation. If you don't have a PharmD, you will need to work as a licensed pharmacist for at least            |
| <u>Number</u> years before developing an agreement. You are <u>Adjective</u>                                   |
|  |

| You can develop a CDTM | A agreement in the | Location | a | Location | Location |

Location Of a Location Location

In the hospital and clinic, you can develop your protocol to have prescriptive authority, you will need to obtain a controlled substance registration from the state. However, if you want to write for <u>Noun</u> drugs schedule
<u>Number</u> such as <u>Noun</u> or alprazolam, you will need to obtain a <u>Noun</u> number from the

may order, and a protocol of how you will practice. Another important part of the agreement is <u>\_\_\_\_\_\_</u> of orders and progress notes. In case of an emergency or if your supervising physician is not on site, a designated <u>\_\_\_\_\_</u> must be available for consultation.

In the community setting, a detailed informed <u>Noun</u> from the patient and a <u>Noun</u> from the

physician must be kept for your records on site and readily retrievable at the request of the Boards of

<u>Noun</u> and Medicine.
