The Solar System

Once there was a little Galaxy, in the _____
_____ Universe. That galaxy was called _____
_____. In this solar system, containing _____ planets, a _____ that
gives us our heat, and light, and _____ thousands of stars. _____ planets, hmm seems like a
small number. Well think again! Even though eight is a _____ number, these planets are much bigger
than you may think, bigger than you may be able to imagine. These planets include, Jupiter, Neptune,
_____ Mercury, Mars, Saturn, Venus, And the _____ (where we live.) There are LOTS of
different amazing things in our solar system, and even beyond that, in the _____. Just imagine, we are
just a tiny little dot in the entire _____.
