What to Do with a Million Dollars

If I ever was lucky enough to find one million dollars under my pillow, I would try to think of a bunch of ways to use all of that money. First I would save some by putting it in a safe place. Then, I would want to go out and have some fun by spending it on fun things that I like to do. Maybe I would buy something big, like an _____ Animal _____ or start my own _____ Location _____. Or, maybe I would send my family to some place fun, such as the _____ Location _____ or on a train ride across _____ Location _____ or on a cruise on the open seas. Then, I would share some to help someone or _____ First name _____. Maybe I would even create my own charity and call it the Save the Kids From School Fund.
