In The Bed

I went over to my boyfriend's house. He pushed me onto his bed and tied me too his bed posts. He started taking my clothes off. He took my bra off and revealed my big tits. He licked them and they became hard. He untied me and I pulled him on top of me. I took his pants and underwear off. His penis looked so delicious. So I sucked it. Then he tied me back up to the bed posts. He stuck his 9"; dick into my wet vagina forcefully. I moaned in pleasure. I liked it so much. He untied me and I tied him backwards to where his butt was facing me. I toop my whip and spanked his butt. I untied him and I grabed his dick and shoved it into my vagina once again. I was getting tired. So we went to bed. His dick was still inside of me. We accidently fell asleep like that. I woke up the next day still hooked to him. I pulled him out.
