# The Story of Cipactli

Our ancestors tell us that once they were born, the four Tezcatlipocas existed for six hundred years. It was only after this period that they began their task of The Creation: They created water, the god Tlaloc and his goddess, who together embodied the essence of water. Then the Tezcatlipocas created Cipactli.

Cipactli is a dragon-serpent that floats in the \_\_\_\_\_ of \_\_\_\_\_. Beyond Cipactli's monster body nothing exists. Our \_\_\_\_\_ and ever \_\_\_\_\_ universe and all the other universes beyond are contained within Cipactli.

In Cipactli's great body the gods gave \_\_\_\_\_ to our world. Thirteen \_\_\_\_\_ exist in Cipactli's head, the \_\_\_\_\_ is in the middle, and nine \_\_\_\_\_ go down the length of Cipactli's tail. Cipactli is so \_\_\_\_\_ that it is almost impossible to \_\_\_\_\_. Our entire existence fits inside. The earth is a great, flat \_\_\_\_\_ located in the middle of Cipactli's body and is surrounded by the Celestial \_\_\_\_\_ making our world \_\_\_\_\_: that which is surrounded by \_\_\_\_\_.
