Work Refusal

The _____ student believed that _____ using a _____
_____ was likely to endanger him. The student quickly reported the conditions of unsafe work to
the _____ who informed the Assistant Park Superintendent. The Assistant Park
Superintendent called the Health and Safety Representative who informed the other students that there was a
work refusal involving a _____ . The Assistant Park Superintendent
investigated in the presence of the Health and Safety Representative and the student. Together they determined
that the _____ mower was in safe operating condition and that all guards
were in place. They discussed the training that the student had received and determined it adequate. The three
discussed the appropriate personal protective equipment and safe operation. The student felt comfortable and
returned to work.
