A Dino-tastic Adventure!

I have the greatest story to share! My friend _____First name_____ and I went on an adventure. We were walking the forest and looking for wild animals when something big and green caught my eye. You won't believe it, but it was a dinosaur! It had bright orange stripes and purple wings! We decided we had to name him Thomper. Then we heard a loud screech in the air. It was other dinosaurs calling to Thomper! We followed Thomper through the forest to a valley and saw at least 50 other dinosaurs of all shapes and sizes. Some were jumping down little water falls, splashing in the water. Others were picking daisies and eating grass. _____First name_____ spotted some playing Monopoly, his favorite game! We asked to join in and we got to play! Before we knew it the sun was beginning to set and it was time to go home. I can't wait for _____First name_____ and I's next adventure!
