How to Treat Achondroplasia

To treat _____Noun_____ you will need to do so early on in your life. If both of your parents have the disorder, you have a _____Number_____ _____Number_____chance of getting it too, so if your _____Plural noun_____were smart they would probably go through _____Adjective_____counseling to make sure you have a _____Number_____chance of getting it. If you chose to _____Verb_____in _____Adjective_____counseling, you would consult with your _____Noun_____about _____Noun_____and then if they tell you that you are eligible to be _____Past tense verb_____then you would be tested to see how to prevent the _____Noun_____. If you are not interested in _____Adjective_____ counseling then you should go in to the doctor for diagnosis or _____Adjective_____changes for your _____Noun_____ before _____Noun_____. This will _____Adjective_____change your _____Noun_____to not have the achondroplasia genes, which give your baby the disorder. Both of these _____Event_____are not guaranteed to work since after all _____Noun_____is usually the formation of a _____Adjective_____mutation that shows up _____Adverb_____. Therefore there is no specific treatment to cure somebody from achondroplasia.
