There was the character from my book, I am number _____ Number I knew because his hands were alight like a _____ Noun. Then I saw another boy running after him, and he had a _____ Noun casting spells at four! Then things got really crazy as _____ Animal charged from the trees, and Barny came up behind me, swinging a sausage, a hoard of _____ Noun at his back. "Where am I?"; and a _____ Noun appears beside me. "unwelcome to uniland! You smell _____ Adjective"; I don't realize this is just the beginning.
