Chicken Pox

Chicken	Pox
---------	-----

When walking to a doctor's office, you get that feeling of	Feeling . For when I wasthere,			
I was happy, counting mychicken pox. With	pox, you can connect the dots, with			
a pen of any shade of I would be Feeling	to see them go. For each tiny little dot sprinkled			
on my was another reason to stay out of my face! For when I stepped into the doctor's office, I				
knew. They were going to steal mypox!!!				
And with a quick burst of energy, Iout that	at door, and left the chicken pox, sprawled out on			
the floor. And the black and white floor was red all over, like a newspaper!
