# The List

I'm sitting in the Vehicle, it's about one a.m.

I can't believe I'm hanging out with Full Name of a Person

She hands me a grocery list, and I say "Question ?"

She gives me a Number dollars and says that should cover it

Number whole catfish wrapped separately

A six-pack of Mountain Dew, Noun - Plural, and some Veet

A dozen Noun - Plural, a bottle of water

A can of color spray paint, a giant tub of Vaseline

She told about the Vaseline very specifically

There's a baby size, a mommy size, and a big fat daddy

The daddy is the one I need, I don't know why I need it

But you don't argue with Full Name of a Person , I agree

I mean, what do you do when the cashier looks at you

And you've got those assorted items sitting there in front of you?
