The Energy Cycle

There was once a Noun seed. The seed was given Noun , Noun and Noun .

Roots sprouted out of the seed and after Number days a little baby seed sprouted out of the ground. Soon

, the seed grew taller and taller and became a Adjective Noun . After it became a plant, a

 Adjective Noun was very hungry and it ate the Adjective Noun . This made the

 Adjective Noun strong, happy, and full. Next, a Adjective Noun got very

hungry and needed to eat. She ate the Adjective Noun who ate the Adjective

 Noun . Number years later, the Adjective Noun died of old age and was buried

in the ground in Proper Noun . Her body turned into soil for future Adjective Noun seeds

to grow in. And then the next cycle of life began!
