Eternal Sunshine

Hi!

I'm sorry.

Why?

Why What?

Why are you sorry? I Adjective said Hi

No, I didn't know if you were talking to me, so....

Really?

Well, I didn't want to assume.

Aw, c'mon, live dangerously. Take the leap and assume someone is talking to you in an otherwise empty car.

Anyway. Sorry. Hi.

Is it okay if I sit closer? So I don't have to scream. Not that I don't need to scream sometimes, believe me. But I don't want to bug you if you're trying to write or something.

No, I mean I don't know. I can't really think of much to say probably.

Oh. So....

I mean it's ok if you want to sit down here. I didn't mean to ...

No, I don't want to bug you if you're trying to....

It's okay, really.

Just, you know to chat a little, maybe. I have a long trip ahead of me. How far are you going? On the train I mean

of course.

Rockville Center.

Get out! Me too! What are the odds.

The weirder part is I think actually i recognize you. I thought that earlier in the diner. That's why I was looking at you. You work at Borders, right?

Yuck, Really? You're kidding. God, bizarre small world right? Yeah that's me book slave there for like five years now.
