How Geoffrey and Cheyenne Met

It was a Adjective day in Month. Geoffrey decided he wanted a food so he went to the food store. At the store when he was checking out he notices is cashire was very Adverb. He said to her, "exuse me but you are Adverb, will you have a Same Food with me?" The girl was very Adjective and said yes. They went to the Location to eat. While they were there they ran into a stray Animal, together they decided to search for its owner. When they couldnt find an owner they decided to share taking care of the dog till they could find an owner. Over the next couple of weeks they put up posters on poles, and they kept the Animal at his Place someone lives and her Place someone lives. The whole time they got to Adverb each other. When they couldnt find an owner for the Animal they decided to keep it and spend the rest of their lives together. They got married in a church somewhere in Country, and lived Adverb ever after.
