Under My Bed

My mom said that you can learn a lot from what you find under a person's _____, so I decided to take a look. The first thing I saw was a _____, furry _____! I _____ and grabbed my _____ to kill it. After that was taken care of, I began to find other objects. I found an _____ pizza box from the beginning of the summer, a _____ sock, a half-eaten popart, and an embarrassing _____ that I just left under there. Looking further, I found this _____ board game called "Pretty, Pretty Princess". Of course, I had to _____ with it! As I continued to look, I also found my _____ and an old pair of tennis _____. Shining my flashlight into the very back of the bed, something reflected back at me. Then, it blinked. After that, I was out there. I didn't want to know about me anymore.
