# Augustan Society Final Draft Two

The people of Augustan love \_\_\_\_\_ Noun. They practically worship it, and it is said that the more a person has , the more important they are. A huge amount of respect is given to people with lots of it, and Augustans have been known to steal it from other Augustans just to get ahead.

There are two groups of people who live in Augusta. Often they do not get along. No one is quite sure why they started fighting many years ago, although some believe that they began fighting over a stolen \_\_\_\_\_ Noun.

The two groups go to different schools, shop at different stores, and are not allowed to marry each other.

Augustans love to eat \_\_\_\_\_ food. The problem is that this is a very unhealthy thing to eat, and many Augustans suffer from diseases caused by eating too much of it. Medical costs are extremely high because of these preventable diseases, and Augustans know they should be eating healthier things, such as \_\_\_\_\_ food , but they just can't help themselves.

The primary method of transportation for Augustans is the \_\_\_\_\_ Noun. These are quite expensive, and it puts Augustans who cannot afford them at quite a disadvantage because without one, it is hard to find employment, access to healthy food, after school enrichment activities for children, and many other things. They are also very dangerous, and contribute to many fatalities each year due to accidents on the road. Finally, they use a special type of fuel made out of \_\_\_\_\_ Noun which is very bad for the environment.
