# Peer Pressure-boy

One day I was talking to my           Noun - Plural          . One of the           Noun - Plural           started           Verb - Present ends            
in ING at another student passing by us. He was being really mean like a           Noun          . He tried to  
encourage all of us to make fun of the student. I stood there unsure of what I should do. I could join them and  
look           Adjective          . I could           Verb - Base Form           away and they may start making fun of me. I want to fit in  
with the           Noun          , but I am not sure that I want to fit in with this crowd. If           Noun - Plural           could make  
fun of this student for no reason, what stops them from           Verb - Present ends in ING           me one day?
