# It's a Love Story

There once was a           Noun           and a           Noun          . They lived on opposite sides of the           Noun          , then fate           Verb - Past Tense           them to California. When Andrea first           Verb - Past Tense           in, and Daniel laid           Body Part- plural           on her, his heart began to           Verb          . He pursued her           Adverb           day after day, until she finally           Verb - Past Tense           him. It wasn't long before they           Verb - Past Tense           in love. In a few short           Measurement of time          , he popped the           Noun          , and of course she said "           Interjection           "! Now they will live           Adverb           ever after!
