Gravity

Gravity is a basic _____Noun_____ in the universe that attracts all _____Noun - Plural_____ to each other. You stay on the _____Noun_____ because of the attraction between your _____Noun_____ and the _____Location_____. As _____Noun_____ objects get further apart, the _____Adjective_____ force between them gets smaller. It never gets to zero; it just gets too small to matter. This is why astronauts seem to be _____Adjective_____ in space. They are not _____Number_____; they are simply _____Verb - Present ends in ING_____ AROUND the earth. Because the amount of gravity depends on your _____Noun_____, your weight is _____Adjective_____ depending on how far away you are from _____Location_____
