Gravity

Gravity is a basic _____ Noun in the universe that attracts all _____ Noun - Plural to each other. You stay on the _____ Noun because of the attraction between your _____ Noun and the _____ Location. As _____ Noun objects get further apart, the _____ Adjective force between them gets smaller. It never gets to zero; it just gets too small to matter. This is why astronauts seem to be _____ Adjective in space. They are not _____ Number; they are simply _____ Verb - Present ends in ING AROUND the earth. Because the amount of gravity depends on your _____ Noun, your weight is _____ Adjective depending on how far away you are from _____ Location.
