Gravity

Gravity is a basicNoun	in the universe that attrac	ets allNoun - Plural	to each other. You stay on		
the ground because of the	Noun between your	Noun and the earth	. As objects		
get further apart, the gravitational force between them gets It never gets to zero; it					
just gets tooAdjective	to matter. This is why	Noun - Plural seem to be	e weightless in space. They		
are not Verb - Present Tense	_; they are simply falling A	ROUND the Noun	Because the		
of gravity depe	ends on your mass, your weig	ght is different depending	on how far away you are		
from Proper Noun
