## Snowman on a Toilet

One day the children decided to make a snowman sitting on a toilet in there front yard. First they had to buy a toilet that they could afford. It was hard because all the children had was \$\_\_\_\_\_ Number.

They went to store after store trying to get a toilet but could not find one. After \_\_\_\_\_ Number stores and \_\_\_\_\_ Number garage sales they found one. The only problem was they had to clean it up. After \_\_\_\_\_ Number hours of cleaning and finding a position for it they got it.

Then they gathered supplies for the snow man and they had just enough. A bag of \_\_\_\_\_ Noun, a \_\_\_\_\_ Noun and a \_\_\_\_\_ Noun. Then they started making the snowman first the biggest one, they decided to put it in front of the toilet. Then the next near 3/4 the size of the other, they decided to put it on top of the toilet seat. Then the head. About half the size of the first one and obviously on top of the one on the toilet seat.

Then they grabbed two twigs and positioned them so that they would hold the \_\_\_\_\_ Noun. Then they made the face. The snowman was finished and was sitting on a toilet. The neighbors came to congratulate us.
