My First Year At College

This would be my first year in college. I wondered what it would be like before bout now that I'm a month through college I know. My teachers were very _____Adjective_____ and loved war some even liked _____Adjective_____ children and _____Adjective_____ things. The lunch ladies were even _____Adjective_____ not to mention the food they gave. Their food was so bad you'd mistake it for puke. Band is a nightmare I used to love band now I want to stop playing the oboe. The band teacher got _____Adjective_____ when ever someone messed up ; if he could he would bicuspid every one's instrument. The animal life teacher had no and I mean no bipeds in there only animals with 3 legs and above even one legged animals she allowed and yes we were the only bipeds in that room. Are world history teacher was obsessed with the word _____crazy word_____ and he could connect the word mom to carnage. That was the teachers but the kids were worse. The kids there were like little monsters they would blame every thing they did on someone else, one time someone even blamed the teacher for forgetting his _____Noun_____ (do not ask me why). My dorm mate was clean but way to clean she was like my mom but doubled. I used think college would be cool but they have a curfew and guards with bicolor uniforms armed with guns. Not to mention the biplanes flying around us there are like a billion. I have night mares about being bisected. On trips they only let us bring binoculars not cameras. The uniforms there are doubloons. I really wish I could go home but I guess I shouldn't have applied to college in Warsaw, Poland.
