The Stupid Computer That Didn't Work

One day I got a new computer. I turned it on but it didn't Verb - Base Form. I waited a Unit of Time and then it Verb - Past Tense. Then when i tried to Verb - Base Form Computer Game, it went to my Noun and Verb - Past Tense everything. Then it Repeat Last Verb - Past Tense everything I had in Computer Game too. Then it started Verb - Present ends in ING and the Repeat Last Verb - Present ends in ING got louder and louder until I had to Verb away or my External Body Part would Verb. When I was in a different province it exploded even more Adverb than the AN602 hydrogen bomb.
