Environmental Sustainability

My name is _____Proper Noun_____ and this why I use California High-Speed Rail. By _____Verb - Present Tense_____ a high-speed train, I am doing my part in reducing global warming and helping control the earth's resource consumption for future generations. High-speed trains eliminate over 12 billion pounds of the greenhouse gas emissions that cause global warming each year. If I were to drive, this trip would have taken _____Number_____ tanks of gas, but the high-speed train only consumes one-third of the energy than that of an airplane and one-fifth of an automobile trip. I don't have to worry about sitting in traffic, because was able to travel from _____Proper Noun_____ Angeles to _____Proper Noun_____ _____Proper Noun_____ in _____Number_____.5 hours. In fact, a high-speed train saves 146 million hours in traffic annually.
