# Taylor Swift

Hi my name is Taylor Swift. I am age now and don't know how my Noun - Plural could be so Adjective. I love every single one of my Adjective fans. I learned how to play instrument at age age. There was a man named First Name of a Person that came over to fix my parent's Noun. While same first name of a person was here, he taught me how to play the same instrument. When I became age, I met One Direction! It was a Adjective experience. Those five boys are the cutest or prettiest boys you've ever seen! My favorite song by them was One Direction song. I just adored One Direction members voice. His voice made me feel Adjective. My favorite season is season. I thank you that you read all this for the past Number minutes. I'm sure you could have Verb - Past Tense in that time. Hope you have a Adjective day!
