Once upon a time I was in war. I had my buddy . Noun . We walked 20 miles to find this house in Noun where the 2 Adjective trolls where invading. When they got there they slowly crept up the stairs and watched what they were doing. Ms. Young thought she saw 'them Verb - Present ends in ING around the house, like Adjective monkeys eating bananas'. They were listing to old mick Donald had a farm. So I looked then the angry trolls were eating Cheese Verb - Present ends in S . So when they walked in the other Preposition , we went in slowly that they would not hear us. But what do you know Ms. Young stepped on a dog interjections in the middle of the Preposition , and fell right on her interjections ! but shhhh..... They didn't hear us because of their music. They were munching on cheese Pronoun ! so Pronoun were too busy doing that stuff while Ms. Young was on the ground in pain. So she finally got up and ran. We were up stairs and I went down and took them out.
