# the building problem

Once upon a time there were 2 architects. These 2 architects were _____Adverb_____ _____Noun_____. They were

such _____Adverb_____ _____Noun_____ that whenever they would get assigned a _____Noun_____ they would work

on it together, whether they were both getting paid or not.

One day they were both hired by a large oil _____Noun_____. This oil _____Noun_____ wanted them to design and

build a _____Noun_____ that would be visibly _____Adjective_____ as well as _____Adjective_____. This was a great and

mighty _____Adverb_____ for them. They began work at once, running back and forth between their _____Noun_____

and the city _____Noun_____ and _____Noun_____ commission. For some reason every _____Noun_____ they came up

with got rejected as either too _____Adverb_____ or too _____Adverb_____ to build. So they went back one final time

to create the best _____Noun_____ in all of _____Event_____. They made the lobby with a _____Noun_____, the

conference room with a water _____Noun_____, and the whole building included every _____Adverb_____

_____Noun_____ known to man. This was their great design and finally they got approved, however the building

contractor stormed off in the middle of _____Noun_____ leaving the _____Number_____ _____Proper Noun_____ to

complete it with only _____Noun_____ and _____Noun_____. Die Ende.
