A Busy Day

I was walking in my grassy area and walked back to the place for animals and hay where my cow was mooing. She was word for big and was the biggest on the where crops are grown.

I had to find a word to describe a knife pitchfork to toss some hay into her stall. It was opposite of soft work, but I had to start somewhere.

After working in the barn, I decided to go to the another word for store. There I would buy a folded paper and some cleaner for my another word for rug in addition to my groceries.

Boy it was a busy day, and it was only not whole!
