A Happy Day

One day a group of ______ and _____ were walking on a country road. They were picking and eating <u>plural fruit</u> and <u>plural fruit</u> as they went along. "Mmmm," one bunny said. "These are better than ______!" One pup started chasing ______ike moths _____. Another just rolled in the ________. One bunny found 4 on the side of the road. What a wonderful day, they thought. This is even better than the <u>fun occasion</u> they went to celebrate the birth of the new duck ______ on the farm. "Much better than when we went to the big _______," one said. "There was may too much traffic there!" These bunnies and puppies were having too good of a time. There could be no <u>more than one of the same</u> of this happy day!
