# Calli's Horse Farm

Growing up Calli had some hard times in school, that is until one day, while studying for a big test, it hit her...."I know this, I can pass this test with ease" she shouted. All of Calli's hard work and studying was starting to pay off. She started to get nothing but A's and B's in all her classes. Studying was all of a sudden easier, she got better grades with less effort and that allowed her to have her horse riding lessons every quarter. Not soon after Calli was able to become a junior counselor at HORSE CAMP. She had so much fun training the younger kids how to properly ride and care for a horse.

As a teenager Calli started to work at the HORSE CAMP where she had started taking lessons. Calli became a champion at showing horses and won many awards. She won scholarships for college that she used to study for and become a veterinarian specializing in horses. When she graduated she started her very own Veterinarian office in       Town      . Once she became the best vet in Mantua she decided to expand her business and bought a Horse farm equipped with stables. She was finally able to have her very own horses and a well staffed team to help her in the stables. She had extra stalls that she rented out to others to keep their horses there as well.
