# what a day

I knew it was going to be a Adjective school day when I arrived and found the Noun on the Noun. He was dressed as a Noun screaming at kids them for bananas. I went on my way and ignored the chaos to find that my classroom was upside down. It was literally upside down with all the Noun - Plural bolted to the ceiling. At that point I just couldn't handle anything else and decided to just go home and curl up in bed for the rest of the day.
