Economics

In Noun, demand refers to the buying behavior of a household. What does this mean? Basically,
Noun want to try to Verb - Base Form three things:
Why people what they buy
How much they're willing to Verb - Base Form
How much they want to buy
Instead of looking at all in the world, however, they try and model how units
function: instead of asking, "How does the American market function?" they ask, "What will one household do
?" Each, or small-scale decision-making unit, is affected by factors when
making choices about what to buy and how much to For instance, if one household lives
in Florida and another lives in, they might have different preferences for clothing, since the
climates are so different. Consumer preferences weigh heavily in a household's buying decisions. Another factor
that affects such decisions is income: a millionaire and an citizen will have very different
purchasing choices, since they have different budgets to work on. All will try to verb
Base Form their utility, that is, make themselves as as possible, by spending what money they
have in the way possible. By considering both their preferences and their budget, they ensure
that they end up with the best combination of possible. Because the household is such a small
unit,

no h	ousehold has a	a significant impa	ct on the marke	et, and so the	Verb - Base Fo	orm of any	single househ	old is
its _	Adjective	effort to react to	o the market	Noun	and the goods	available.		
At tl	ne other side o	f every <u>Noun</u>	is a seller	. Economists	Verb - Base F	orm to the	behavior of se	llers
as th	nat market forc	e of supply. It is t	the Adverb	forces o	f supply and de	mand that mal	ke up a market	
ecor	nomy. In micro	peconomics, the si	mallest <u>Not</u>	of su	pply is the firm	, which is	Adjective t	o the
dem	and unit of the	household. Firm	s operate	Adverb O	f each other, ma	king decisions	s about what to	sell,
and	how much to s	sell, depending on	the price. How	do firms ma	ake their	deci	sions? Once th	ey
have	e decided what	to sell, a decision	n they make bas	sed on what t	hey Verb - B	ase Form bu	ıyers will want	to
buy,	their decision	is then influenced	d by the market	price of the	goods. If a firm	n in Boston de	cides to sell	
	Adjective h	nats, they will wan	nt to sell more _	Noun	_ if the going p	orice is high th	an if the going	price
is lo	w. Just like ho	ouseholds, firms tr	ry to maximize	their utility v	when making	Adjective	_ decisions.	
Whe	ereas a buyer's	utility is a comple	ex <u>Noun</u>	of prefere	nces, needs, an	d happiness, e	conomists usua	ılly
assu	me that sellers	derive utility from	m Noun	, that is, th	e more money a	a seller makes	from a sale, the	e
happ	oier it will be. l	Firms will	erb - Base Form	_ their utility	by selling what	tever will mak	e them the mos	st
mon	ey. In this way	y, sellers' utility is	somewhat	Adverb	to study and ur	nderstand, sinc	e we don't have	e to
take	Adjective	preferences in	nto account (in	theory). Inst	ead, we look pu	rely at price a	nd profit.
