Me First Kiss

Evie was sitting with her friends on the small hill at lunch, and Jonny, herAdjective	_ was playing this
weird but cool game of catch with his friends. He ran past Evie and caught her eyes and he	e wouldn't look away,
neither would she. He soon looked away and carried on running. Jonny ran past Evie again	and his friend pushed
him and he fell beside her. They just looked at each other and both leaned in for a kiss. Al	l of their friends
looked dead shocked because they never expected it.
