when we didnt get along

Without your schemes my life, it seems, is empty

I spent all my time keeping you from doing wrong

You were my only Noun

I'd foil your plans, but still I miss

The Noun - Plural when we didn't get along

I fell for you the moment that you pushed me

You captured me and held me for so long

But now you're doing battle with a animal from city

I miss the moments when we didn't get along

So search your part of the body, please, kind of person D

And I am sure that you will see

That you were always meant to be

My only lifelong kind of person

You gave my life heroic cause

Back when my only mission was

The Noun - Plural when we didn't get along

Ooh...
