Our Alma Mater

In the shadow of the St. Louis architectural term, you'll find a medium sized university. Referred to by some as the University of the region of the country, it draws the Adjective - Ends in EST and Adjective - Ends in EST students from around the globe. Many hope to become profession or profession, while other more profession students eventually choose school subject as their major. Undergraduates live on the "South Adjective", play game on the Noun, and enjoy Adjective cuisine from Bon french noun. More students cheer on the a Capella groups, such as the Adjective Noun - Plural, than the sports team, the Animal (plural). Percent percent of students join nationality organizations, but all students put their Noun - Plural first.
